Pröll P-PCM

Disposable screen printing stencils

Pröll P-PCM (pre-coated mesh) is an industrially pre-coated, high-modulus screen printing mesh of cleanroom quality. Combined with an eco-friendly wood fiber frame, it is ideally suited for small-format industrial screen printing applications, delivering superior print quality and maximum efficiency.

- ✦ Disposable MDF frames
- ✦ Dimensionally stable
- ✦ Customizable geometries
- ✦ Water and solvent resistant
- ✦ Custom frame sizes
- ✦ Profile thicknesses:
12 mm, 16 mm, 19 mm
- ✦ Small quantities possible
- ✦ Reduction in transport costs
- ✦ Cost-effective compared to aluminum frames
- ✦ Savings on labor and machinery costs
- ✦ Savings on cleaning supplies
- ✦ Short response times

Technical Specifications for the P-PCM

Fabric parameters:

- ✦ Coating thickness
4–8 µm
- ✦ Coating tolerance ± 2 µm
- ✦ Low RZ value
- ✦ Custom coating parameters
available upon request

Standard fabrics available:

- ✦ 120-30
- ✦ 120-31
- ✦ 120-34
- ✦ 140-30
- ✦ 140-31
- ✦ 150-30
- ✦ 150-31
- ✦ 165-27
- ✦ Custom fabric types
available upon request
