

# NoriPlan<sup>®</sup>

# Opaque Ink System for the Decoration of Tarpaulins

#### **Area of Application and General Characteristics**

Flexible one-component ink system for the decoration of truck tarpaulins/awnings and advertising banners with excellent weather resistance.

NoriPlan® can be rolled, painted, sprayed and screen printed. The colors are of good opacity.

#### Finish

Glossy

#### **RAL-Color Shades**

1016	Sulfur Yellow	5002	Ultramarine Blue	6016	Turquoise Green	942	White
1021	Rape Yellow	5005	Signal Blue	6018	Yellow Green	9005	Jet Black
2004	Pure Orange	5010	Gentian Blue	6026	Opal Green	9006	White Aluminum
3000	Flame Red	5015	Sky Blue	6029	Mint Green	862	Rich Pale Gold
3002	Carmine Red	5017	Traffic Blue	7004	Signal Gray		
3020	Traffic Red	6005	Moss Green	7015	Slate Gray		

The available colors were matched by screen printing on white substrates using a screen fabric 77-55 threads/cm (195-55 threads/inch). Other application methods will provide varying ink film thicknesses and therefore slight color variations are possible.

## Thinning

Rolling and Painting Thinner M 205: Addition: approx. 25 – 30 %

**Spraying** Thinner F 002: Addition: approx. 120 %

This corresponds to a flow time out of a DIN-4-cup of approx. 16 – 18 sec.

**Printing** Thinner M 204

Thinner M 203

Addition: approx. 20 %

#### Mesh

In order to achieve high opacity, fabrics of 40 to 81 threads/cm (100 to 200 threads/inch) are recommended. All usual screen printing fabrics are suitable.

#### Stencil

Solvent-resistant emulsions must be used. Excellent results during long production runs are achieved by using Pröll emulsion Norikop 10 HQ.

# **Drying**

Drying can be accelerated by blowing warm air onto the applied ink.

#### **Cleaning of Screens and Utensils**

UNICLEANER FP 61 and UNI-REIN A III

#### NoriPlan<sup>®</sup>

### Shelf Life

The shelf life stated on the label assures the ink's quality and refers to unopened original cans stored in a dry place at temperatures between 5 °C (40 °F) and 25 °C (75 °F).

#### **Important**

Allow the ink as well as all the auxiliaries to be added to adjust to room temperature in the closed container before use.

Results, to a large extent, depend on the substrate as well as the printing and application conditions. We recommend checking your substrate under your conditions of use prior to any production runs. Materials that are supposed to be identical may vary from manufacturer to manufacturer and even from batch to batch. Some substrates may have been treated with or can contain sliding agents, antistatics or other additives which will impair the adhesion of the inks.

In general please refer to our technical leaflet "General Information on Screen Printing Inks" which may be downloaded from our website <a href="www.proell.de">www.proell.de</a>, click Downloads  $\Rightarrow$  Solvent-Based Screen Printing Inks.

The information contained in the technical information/instruction sheets or other product information sheets is based on product testing conducted by Pröll. Because printing and environmental factors critically affect each individual ink application, the above mentioned information and instructions represent only general recommendations concerning product characteristics and directions for use and should not be construed as representing express warranties regarding the product. The information and instructions in no way release the purchaser from his obligation to verify and test the inks and their application for the specific request, regarding: product characteristics, weather resistance, mixing proportions, gloss, thinning, special mixtures, printability, drying speed, cleaning, effects on or of other materials to be contacted and safety precautions. All details contained in the instruction sheet "General Information on Screen Printing Inks" are to be considered. The further manufacture and use of products containing our inks by the purchaser takes place beyond our control, and the responsibility for further application and use of our product resides solely with the purchaser. Pröll disclaims any warranties, express or implied.
